

**About us:** Tru Vue, a subsidiary of Apogee Enterprises, is a leader and innovator in the protection and conservation of all things framed and displayed. We manufacture high-performance glass and acrylic products for museums, picture frames, and electronic displays.

We are a company where you can have an impact from day one. Our environment has an entrepreneurial feel but with significant support and resources. As a Tru Vue team member, you will have many opportunities to expand your skills and knowledge. You will work with a team that believes in our products and is passionate about customer service.

**Your Role:** Individuals in this role will develop and implement quality programs, including tracking, analyzing, reporting, and problem solving. Plan, control, and assure product and process quality in accordance with quality principles, acceptance sampling, and measurement systems. Owning the automated inspection equipment to support and improve the quality management system components. Drive continuous improvement of key metrics relating to increasing machine capability and throughput, decreasing unplanned downtime and maximizing yields using principles of “Lean Thinking” and Six Sigma.

**What We Are Looking For:** We are looking for a dynamic team player who has high sensitivity to quality and detailed orientated. You must have the ability to develop standards and methods for inspection, testing, and evaluation. In addition, the ideal candidate will have:

- An undergraduate degree in engineering, quality, business administration, science, or related field (or equivalent experience).
- Familiarity with Lean Manufacturing and formal Six Sigma training.
- Working knowledge of statistical analysis software (i.e. Minitab, SPSS, JMP)

**IF YOU ARE READY TO MAKE A DIFFERENCE, FLEXIBLE, SELF-MOTIVATED, AND CARE ABOUT CUSTOMERS; PLEASE CONSIDER JOINING OUR TEAM BY EXPLORING OUR WEBSITE:**
